2026 Week 41, 08/10/2026 — Executive Proposal · MVS Project Pulse

MVS ICT PROJECTS REVIEW • 2026 Week 41, 08/10/2026

MVS ICT Weekly Projects Review

Projects, Leads, and Tasks — Executive Command Center

A single pane of glass connecting Pre-Award Sales Deals, Active Site Delivery, and Real-Time Cash Flow without manual spreadsheets.

Active Multi-Track Project Portfolio:

- **Track 1: Seven Entertainment (SEVEN):** Major entertainment destination contracting & fit-out execution
- **Track 2: Salam CCS:** Corporate telecom & infrastructure delivery scope
- **Track 3: Dune Corridor Project (DCP):** Active strategic development site & operations
- **Track 4+: New Awarded Projects:** Instant onboarding upon PO award • Infinite architectural scale

Integrated Modules: Sales Pipeline (RFQ → PO) • Live Progress % • Cash Flow & Petty Cash Floats

Executive Command Dashboard

2026 Week 41, 08/10/2026 — Live Operations Screen · The 3-Pillar Unified Management Model

Pillar 1: Sales Pipeline

Commercial Deals & Pre-Award Bids

- **RFQ Logging & Triage:** Captures inbound commercial opportunities with target dates.
- **Deal Classification:** Services / Projects vs Box-Moving (Product Supply).
- **Quotation & Revisions:** Live tracking of submitted quotes and price iterations.
- **Agreed Payment Terms:** Advance %, Credit terms (30/60d) and milestones.
- **PO Award & Sync:** Auto-triggers project initiation upon winning contract.

Pillar 2: Active Projects

Site Delivery & Milestones

- **Multi-Track Portfolio:** Seven Entertainment, Salam CCS, DCP & Future Tracks.
- **Live Progress %:** Real-time task and stage completion vs contract schedule.
- **Scope & Deliverables:** Clear visibility of site handover milestones and blockers.
- **Project Manager Assign:** Direct operational accountability per site manager.
- **Instant Track 4+ Scalability:** Add newly awarded contracts with one click.

Pillar 3: Cash Flow

Executive Financial Health

- **Contract Financials:** Project Value, Total Invoiced, Received & Remaining.
- **Aged Overdue Alerts:** Automatic flags for overdue client receivables (20d, 45d).
- **Petty Cash Floats:** Digital vouchers and mandatory photo receipts per PM.
- **Emergency Purchases:** Tagged to POs to eliminate unaccounted cash leakage.
- **Net Liquidity View:** Real-time bank receipts vs site outflow intelligence.

EXECUTIVE STRATEGIC VALUE — INSTANT TRANSPARENCY WITHOUT SPREADSHEET CHAOS

Replaces fragmented WhatsApp messages, delayed phone check-ins, and manual Excel tracking with a unified, role-isolated web portal. Executive leadership gains real-time visibility over commercial opportunities, active site milestones, and corporate liquidity from any desktop or mobile device — enabling faster decisions and zero operational blind spots.

Pillar 1: Commercial Sales Pipeline

2026 Week 41, 08/10/2026 — Pre-Award Deals · RFQ → Quotation → Follow-up → PO Award & Payment Terms

Quotation & RFQ Ref	Client Opportunity & Type	Value (SAR)	Payment Terms	Commercial Stage	Closing & Prob.
MVS-QT-2026-088 RFQ: RFQ-2026-104	**Client Name 1** Services / Contracting	**SAR 1,850,000**	**50% Adv / 50% Delivery** Advance cashflow secured	**Follow-up / Neg.**	**End Oct** (85% Prob.)
MVS-QT-2026-092 RFQ: RFQ-2026-112	**Client Name 2** Product Supply (Box Moving)	**SAR 740,000**	**30 Days Credit** Aged receivable alert set	**Quote Submitted**	**Mid Nov** (75% Prob.)
MVS-QT-2026-095 **PO: PO-2026-8841**	**Client Name 3** Turnkey Services	**SAR 960,000**	**100% Full Advance** Immediate mobilization	**PO Awarded (Won)**	**Awarded** (100% Won)
TOTAL PIPELINE VALUE	3 Active Commercial Opportunities	**SAR 3,550,000**	Blended Terms (Adv + Credit)	**High Win Conversion**	**SAR 2.98M Weighted**

1. Dual-Stream Classification (Services vs Box-Moving)

- Services / Contracting: Long-cycle turnkey contracts requiring dedicated PM assignment, engineering deliverables, site progress % tracking, and labor allocation.
- Product Supply / Box-Moving: Rapid hardware & equipment supply with simple delivery notes, standard credit terms, and fast direct invoicing without site labor overhead.

2. Automated Upfront Payment Term Invoicing

- Contractual Terms Locked: Advance %, Credit Days (30d/60d), or Milestones are finalized during quotation.
- Instant Trigger on PO Award: System automatically notifies Accounts to generate upfront mobilization invoices the moment a deal is won.
- Zero Cash Lag: Prevents delayed billing where teams begin mobilization work before invoicing the contractual client deposit.

Pillars 2 & 3: Active Projects & Cash Flow

2026 Week 41, 08/10/2026 — Live Portfolio Performance · Project Value, Invoiced, Received & Overdue Aging

TOTAL PORTFOLIO VALUE
SAR 4,400,000
3 Active Executing Tracks

TOTAL INVOICED TO DATE
SAR 2,580,000
58.6% of Total Contract Value

CASH RECEIVED (INFLOW)
SAR 2,120,000
82.2% Collection Efficiency

AGED OVERDUE RECEIVABLES
SAR 460,000
Immediate Collection Action

Project Track & Scope	Progress %	Project Value	Invoiced	Received	Remaining	Aged Overdue
Track 1: Seven Entertainment Entertainment Destination Fit-out	**68%** Active Delivery	**SAR 2,450,000**	SAR 1,470,000 (60.0% Billed)	**SAR 1,120,000** (Collected)	SAR 980,000 (Unbilled)	**SAR 350,000** (45 days overdue)
Track 2: Salam CCS Corporate Cloud Services & Infra	**75%** Active Delivery	**SAR 1,100,000**	SAR 770,000 (70.0% Billed)	**SAR 660,000** (Collected)	SAR 330,000 (Unbilled)	**SAR 110,000** (20 days overdue)
Track 3: Dune Corridor (DCP) Active Strategic Development Corridor	**42%** Active Delivery	**SAR 850,000**	SAR 340,000 (40.0% Billed)	**SAR 340,000** (Collected)	SAR 510,000 (Unbilled)	**SAR 0** (Current / Nil Overdue)
Track 4+: New Awarded Projects Future Portfolio Expansion	**Auto-sync** On PO Award	**+ Instant Onboarding: Automatically adds Progress %, Project Value, Invoiced & Received upon PO award.** Infinite Architectural Scale • Seamlessly activates without software restructuring or custom coding.				
TOTAL PORTFOLIO SUMMARY	**64% Avg**	**SAR 4,400,000**	**SAR 2,580,000**	**SAR 2,120,000**	**SAR 1,820,000**	**SAR 460,000**

Site Cash Flow & Expense Governance

2026 Week 41, 08/10/2026 — Petty Cash Float, Emergency Purchases & Site Allowances Audit

1. Petty Cash Float Control

- **Standard Float Assignment:** Pre-authorized revolving cash float assigned per Site PM (e.g. SAR 5,000).
- **Digital Voucher Submission:** Mobile & desktop submission for site consumables, daily transport, and minor tools.
- **Mandatory Receipt Photo Upload:** Requires high-resolution invoice/receipt capture prior to float reimbursement approval.
- **Live Float Balance Audit:** Accounts and C-Suite verify unspent cash balances across all sites in real-time.

2. Materials & Emergency Purchases

- **Emergency Site Consumables:** Tracks unplanned local hardware purchases, emergency wiring, and urgent site tools.
- **Mandatory PO Tagging:** Spend must link to an approved Project PO code to eliminate cost leakage.
- **Supplier Invoice Matching:** Direct ledger entry preventing double-invoicing or duplicate reimbursement.
- **Real-Time Project Costing:** Expenditures immediately adjust actual project gross margin against original budget.

3. Site Allowances & Technician Per-Diems

- **Technician Daily Per-Diems:** Standardized daily meal, travel, and site accommodation allowances.
- **Timesheet Integration:** Reconciled against verified on-site biometric or PM-approved muster attendance.
- **Overtime Pre-Authorization:** Overtime hours tracked and validated against billable customer variation orders.
- **Frictionless Month-End Payroll:** Eliminates disputed manual claims and delays in technician expense settlements.

4. Net Cash Flow & Liquidity Intelligence

- **Inflow vs Outflow Comparison:** Monitors actual customer cash received vs cumulative site operational outflow.
- **Working Capital Protection:** Automated flags alert leadership if site expenditures approach received client funds.
- **Positive Project Liquidity:** Guarantees site execution remains self-funded without company cash drain.
- **Executive Audit Readiness:** Instant export of digital receipts, vouchers, and approvals for corporate audit.

Deal-to-Execution Flowchart

2026 Week 41, 08/10/2026 — 5-Stage Departmental Lifecycle & Real-Time Executive Synchronization

Step 1: RFQ Received
Commercial Inquiry • Sales Team

Customer RFQ logged with scope and classified into Services or Box-Moving.

Step 2: Quotation Sent
Pricing & Terms • Sales Team

Commercial proposal issued with locked payment terms and milestones.

Step 3: Follow-up
Negotiations • Sales Team

Clarifications logged with win probability rating (e.g. 75%, 85%).

Step 4: PO Awarded
Contract Won • Deal Closed

Contract awarded; system auto-triggers upfront invoice request to Accounts.

Step 5: Active Project
Site Execution • Site PMs

Project track initialized; live progress % and petty cash governance live.

▼ ALL DEPARTMENT DATA AUTOMATICALLY SYNCHRONIZES IN REAL-TIME INTO THE EXECUTIVE DASHBOARD ▼

EXECUTIVE DASHBOARD

Instant Transparency • Zero Chasing

Consolidated C-Suite intelligence from Sales, Sites & Finance in a single command portal.

1. Commercial Sales View

- **Pipeline Deals:** Active RFQs & weighted values.
- **Quotation Success:** Win rates and conversion cycle.
- **Payment Terms:** Contractual advance & credit terms.

2. Active Project View

- **Live Progress %:** Physical site completion tracking.
- **Milestone Delivery:** Timelines, deliverables & handovers.
- **Track 4+ Setup:** Immediate project addition on PO award.

3. Cash Flow & Liquidity

- **Invoiced vs Received:** Actual cash collected vs billed.
- **Aged Overdue Debt:** Flags unpaid invoices over 20d/45d.
- **Site Float Control:** Audited digital receipts per PM.

Architecture & Rapid 4-Week Roadmap

2026 Week 41, 08/10/2026 — Zero Software Licensing, Role Confidentiality & Fast-Track Rollout

100% In-House & Zero Software Licensing

Built entirely internally on enterprise PHP (Laravel) + MySQL. Full proprietary IP ownership belongs to MVS with ZERO monthly SaaS subscriptions or per-user licensing fees.

Strict Role-Isolated Confidentiality

Sales sees only commercial deals; Site PMs see only their assigned track; corporate profit margins, overall cash liquidity, and balance sheets remain strictly private to the CEO.

Infinite Scale & Rapid Extensibility

Effortlessly onboards Track 4, Track 5, and future contracts with instant configuration. Modular architecture ready for automated ERP/accounting integration.

Phase 0: Baseline & Schema Setup • Weeks 1 – 2

Collate existing historical RFQs, active contracts & customer terms. Standardize payment terms logic (Advance %, Credit Days, Milestones) and initialize the multi-track database schema.

Phase 1: Core MVP Command Launch • Weeks 3 – 4

Deploy Commercial Sales Pipeline (RFQ-to-PO workflow), Live Project Progress % tracking, Executive Invoicing/Received dashboard, and digital Petty Cash float management.

Phase 2: Automated Executive Briefs • Week 5

Roll out auto-generated weekly PDF flash reports dispatched to the CEO every Thursday afternoon with collection forecasts, aged debtor alerts, and project status milestones.

Immediate Action Items & Sign-Off

2026 Week 41, 08/10/2026 — Executive Decisions & Inputs Required to Commence Build

Executive Decision Item	Action / Input Needed from CEO	Immediate Next Technical Step
1. Sales Workflow & Terms	Confirm standard payment term options (Advance %, 30/60d Credit) and commercial follow-up stages.	IT will configure the complete RFQ-to-PO pipeline and payment terms logic in 24 hours.
2. Project Sanction	Executive sanction to commence Phase 0 data collation and Phase 1 technical development.	Application scaffolding and database migration initiate immediately upon approval.
3. Petty Cash Float Limits	Confirm standard site petty cash ceiling (Recommended: SAR 5,000 per Site Project Manager).	Accounts and IT establish digital voucher audit workflow and receipt verification rules.
